

# LandScan AI — Quick Fixes Checklist (1–2 Min Updates)

Instant Wins & UI Fixes (29 Modules) | Execution Time: 1–2 Mins Each

## Overview of Quick Fixes

These modules represent UI labels, metadata form dropdowns, branding updates, and legal disclaimer banners that can be completed immediately in 1 to 2 minutes without building new backend services.

| ID  | Category                       | Module / Requirement                   | Status   | Action Required (1-2 Mins)                             |
